

**CYPRESS LAWN CEMETERY ASSOCIATION
CREMATION AUTHORIZATION AND DISPOSITION**

CHAMBER # _____

No cremation or interment shall take place until a written authority along with a completed Application and Permit for Disposition of Human Remains signed by the authorized representative(s) of the deceased have been given to the cemetery authority. (Sections 10375 and 7100, Health & Safety Code.)

The undersigned requests and authorizes CYPRESS LAWN CEMETERY ASSOCIATION, in accordance with and subject to its and regulations and the appropriate sections of the California Health and Safety Code, to cremate and process in a manner suitable for interment the remains of:

Name of deceased _____

I/we represent and warrant to you that I/we am/are the person(s) having the right to control the disposition of remains of the decedent.

I/we have the right because I/we am/are: (authorizing person(s) must initial the following as it applies)

- _____ Self
- _____ Surviving Spouse
- _____ I/We are the sole surviving child/children of the deceased.
- _____ I/We represent a majority of the surviving children (total number of children _____) and that we have used reasonable efforts to notify all other surviving children and are not aware of any opposition to these instructions on the part of one-half or more of the children.
- _____ Funeral Director/Cemetery Authority
- _____ Other authorized representative. State relationship and authority: _____

I/We authorize disposition of the cremated remains by: (Initial one)

- | | |
|---|--|
| _____ Interment in a cemetery plot or mausoleum crypt | _____ Scattering in a dedicated cemetery |
| _____ Placement in columbarium niche | _____ Releasing to family _____
<small>Name of Recipient</small> |
| _____ Placement at Cypress Lawn | _____ Releasing to Mortuary _____
<small>Name of Mortuary</small> |

I/we expressly give permission for:

- 1) The cremation to take place including incidental or inadvertent commingling of the remains with residue of prior cremations (Section 7054.7 (a) (1) California Health and Safety Code).
- 2) The processing of the cremated remains so that they are suitable for inurnment within a cremated remains container or urn (Section 7054.1, California Health and Safety Code).
- 3) I/We hereby acknowledge that I/we are responsible for the removal of any jewelry or mementos from the deceased prior to cremation.
- 4) I/We authorize the Funeral Home to remove any eyeglasses from the cremation container and return them to me/us.
- 5) I/we understand that any jewelry or mementos of the deceased may be destroyed during the cremation process and may not be recoverable. Any material which is recovered shall be returned to the cremated remains container. (Section 7051, Health & Safety Code).
- 6) The Crematory shall accept for cremation only those human remains which are in a cremation container, as defined (see reverse side), which is labeled with the identity of the decedent (Section 8345.5, Health & Safety Code).
- 7) The Crematory will accept for cremation only those caskets or containers which meet the definition of a cremation container (see reverse side) as defined in Section 7006.5, Health & Safety Code).
- 8) In the event of there being more cremated remains than the container provided, or the urn which I/we have chosen, will hold, I/we direct, CYPRESS LAWN CEMETERY ASSOCIATION to place the balance of the cremated remains in a secondary container and have it attached to the primary container in accordance with Section 8345, Health & Safety Code.
- 9) The Crematory will store the body of the deceased at a temperature no greater than 50°F unless the cremation process will begin within 24 hours of the time that the human remains were received by the Crematory (Section 8346, Health & Safety Code).
- 10) The Crematory will not cremate any human remains which contain any type of implanted pacemaker, mechanical, radioactive or silicon device. In the event the remains of the Deceased contain such a device, I/we hereby authorize the Funeral Home, its agents and employees, to remove any such mechanical devices from the remains of the deceased prior to the cremation, and dispose of such items in any lawful manner it deems appropriate.

Description of implanted devices	Disposition
Description of implanted devices	Disposition

I/we further acknowledge that "The human body burns with the casket, container, or other material in the cremation chamber. Some bone fragments are not combustible at the incineration temperature, and, as a result, remain in the cremation chamber. During the cremation, the contents of the chamber may be moved to facilitate incineration. The chamber is composed of ceramic or other material which disintegrates slightly during each cremation and the product of that disintegration is commingled with the cremated remains. Nearly all of the contents of the cremation chamber, consisting of the cremated remains, disintegrated chamber material, and small amounts of residue from previous cremations, are removed together and crushed, pulverized, or ground to facilitate inurnment or scattering. Some residue remains in the cracks and uneven places of the chamber. Periodically, the accumulation of this residue is removed and interred in a dedicated cemetery property, or scattered at sea." (Section 7054.7 of the California Health and Safety Code)

I/we warrant that all statements and representations are true and correct and that I/we have read and understand the provisions contained in this document. This is your authority to make disposition of the remains as above indicated, and I/we assume full responsibility for their identity whether or not I/we viewed the remains. In the event such remains have not been permanently interred or picked up by me or my agent designated for said purpose within one (1) year of the cremation date, CYPRESS LAWN CEMETERY ASSOCIATION is authorized to inter, or cause them to be interred, in the cemetery. I/we hereby agree to indemnify, release and hold the Crematory, Cemetery Authority, Funeral Home, their affiliates, agents, employees, and assigns harmless from any and all loss, damages, liability or causes of action (including attorney's fees and expenses of litigation) in connection with the cremation and disposition of the cremated remains of the deceased.

CREMATION DEFINITIONS

Section 7010 California Health and Safety Code

"**Cremation**" means the combination of all of the following:

- (a) The reduction of the body of a deceased human to its essential elements by incineration.
- (b) The repositioning or movement of the body or remains during incineration to facilitate the process.
- (c) The processing of the remains after removal from the cremation chamber.

Section 7010.3 California Health and Safety Code

"**Processing**" means the removal of foreign objects, pursuant to Section 7051, and the reduction of the particle size of cremated remains by mechanical means including, but not limited to, grinding, crushing, and pulverizing to a consistency appropriate for disposition.

Section 7010.5 California Health and Safety Code

"**Residue**" means human ashes, bone fragments, prostheses, and disintegrated material from the chamber itself, imbedded in cracks and uneven spaces of a cremation chamber, that cannot be removed through reasonable manual contact with sweeping or scraping equipment. Material left in the cremation chamber, after the completion of a cremation, that can be reasonably removed shall be considered to be in excess of "residue."

Section 7002 California Health and Safety Code

"**Cremated remains**" means human remains after cremation in a crematory.

Section 7006.3 California Health and Safety Code

"**Cremation chamber**" means the enclosed space within which the cremation of human remains is performed.

Section 7006.5 California Health and Safety Code

"**Cremation container**" means a combustible, closed container resistant to leakage of bodily fluids into which the body of a deceased person is placed prior to insertion in a cremation chamber for cremation.

Section 7006.7 California Health and Safety Code

"**Cremated remains container**" means a receptacle in which cremated remains are placed after cremation.

Section 7009 California Health and Safety Code

"**Interment**" means the disposition of human remains by entombment or burial in a cemetery or, in the case of cremated remains, by inurnment, placement or burial in a cemetery, or burial at sea as provided in Section 7117.

Section 7010.7 California Health and Safety Code

"**Scattering**" means the authorized dispersal of cremated remains at sea, or commingling in a defined area within a dedicated cemetery, in accordance with this chapter.

Section 7011 California Health and Safety Code

"**Inurnment**" means placing cremated remains in a cremated remains container suitable for placement, burial, or shipment.

Section 7011.2 California Health and Safety Code

"**Placement**" means the placing of a container holding cremated remains in a crypt, vault, or niche.

Section 7025 California Health and Safety Code

"**Disposition**" means the interment of human remains within California, or the shipment outside of California, for lawful interment or scattering elsewhere, including release of remains pursuant to Section 10376.5.
